Forecast for Thursday 03 Nov 2022

Weather: Cloudy at first, perhaps with some outbreaks of light rain, soon clearing. Then a showery day, some of which will be heavy with thunder. Some sunny spells are possible in between the showers during the morning. Showers tending to become more frequent during the afternoon, banding together to give longer spells of rain. Windy at first but this soon easing.

Chance of cloud-free hill tops above 600m: 80%, becoming 60% during the afternoon.

Low cloud and visibility: Visibility will be good away from showers and low cloud. Falling to poor temporarily in heavier showers, with nearby hills obscured and very poor in low cloud covering hills with nearby landmarks obscured. Patchy cloud with bases down to 600-700m, becoming more widespread at 500-600m during the afternoon.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Some wind chill possible on higher slopes, more noticeable in showers. Conditions deteriorating later in the day as showers become more frequent with increasing low cloud.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
03:00 on Thu 03 Nov 2022	19.6mm	49mm	66.8mm

Forecast for Friday 04 Nov 2022

Weather: Heavy showers easing in the early hours. Then a largely dry day with plenty of sunny spells. A very isolated shower is possible.

Maximum wind: Westerly or northwesterly 15-25mph, gusting 30mph.

Chance of cloud-free hill tops 600m: 60% during the early hours becoming 95%.

Low cloud and visibility: Areas of cloud around 500-600m at first will give very poor visibility with nearby landmarks obscured, clearing during the early hours. Then patches of cloud around 600m and above near any showers will temporarily give very poor visibility. Otherwise good views are expected around the national park with very good visibility.

Temperature: **Valleys:** Plus 3 rising to 11 Celsius.
At 600m: Plus 6 Celsius.
Freezing level: Above all summits.
